

EU records 31% rise in pork exports to Japan

Japanese pork imports increased by just under 13% during the first six months of this year with the extra trade shared by both EU and non-EU suppliers, according to AHDB Pork.

The EU-based market share grew more strongly during the half-year, advancing by 31% from 123,500 tonnes in the same period in 2015 to 161,400 tonnes in H1, 2016.

The non-EU share, starting from a larger H1, 2015, base of 256,700 tonnes, rose to 267,400 tonnes in H1, 2016.
