“In recent weeks we have focused on urging dairy processors to be open and honest in a bid to build better, fairer supply chain relationships and to ensure contracts that are fit for purpose. We regularly meet with retailers with recent successes on those signing our Fruit and Veg Pledge that will provide security for suppliers, fair terms and price certainty. We meet with banking leaders to ask for their continued support for the industry in these challenging times.

“These latest farm business income figures underline the need to ensure that British agriculture is dealt with fairly when the Government starts its negotiations for a post-Brexit Britain.

“The most immediate issues confronting the farming sector are trade and access to labour - these must be at the heart of any discussions for the country’s future farm policy so that our industry is able to achieve its true potential.”
