

UK pigmeat imports and exports both show rising trend

August was a strong trading month for the UK pigmeat trade with both imports and exports recording increased levels, compared to last year, according to AHDB Pork.

Based on the latest figures from HMRC, pork imports were 8% higher in 3 Q0ir0d oangher onorts

“Exports to China were also well above August 2014, although this was more than offset by lower shipments to Hong Kong.”

On prices, although unit values were lower, the fall wasn't as great as for imports. As a result, total export value was down just 3% on the year, at £16.3 million.
